

SATURDAY, APRIL 5.

NEWSPAPER FOLDING MACHINE.—We have recently added to the machinery in our office a folding Machine, manufactured by S. H. Weeks, of Columbus, Ohio. It is a great saving of time, labor, and expense. It enables us to dispense with the services and annoyance of a number of boys, who were required to fold the papers. The folding is done mechanically, expeditiously, and with greater uniformity than it can be done by hand. The machine is compact, simple, and substantially made. The entire frame work is of iron, the rollers of wood. It can be regulated so as to fold papers of any size, and will fold them at the rate of 2,700 per hour. Every newspaper having a large circulation would find one of these machines very economical.

There are hundreds of our adopted citizens who know the necessity of the success of American principles. They have seen and felt the tyranny and oppression of the governments of the countries from which they emigrated, and have always been greatly gratified by our American institutions—they have families—they have children—they have sons to whom they would fain secure the blessings of religious and political freedom which they have here enjoyed—they know well the beneficent effect upon our republican institutions of the "insidious wiles of foreign influence." We say to all the friends of the "old country"—the only way to preserve their sons, to their children, to their posterity, to themselves the political and religious freedom uncorrupted and unimpaired, is to secure the permanent success of the American party by the election of the American ticket to-day.

ANTI-AMERICAN.—Last week the Anti-American in Cincinnati had a convention to nominate a candidate for the presidency.

The convention was composed of 84 foreign-born Roman Catholics, 11 native-born Roman Catholics, 60 native and foreign-born Protestants—in all 155 delegates.

Eight candidates were nominated, of whom *four* were foreigners and *three* were natives.

When a name was proposed for nomination, the question raised was not is he capable and honest, but is he a foreigner and a Catholic.

After the discussion, the candidates for the party in other portions of the country have been working for the same patriotic purpose, but now it turns out that the property is not to be sold, but will remain in the hands of Mr. John A. Washington. We hope it will be sold to him to keep it in decent repair, since he is unwilling to let others do it.

A large assortment of Lumber for sale at wholesale or retail. Price low. Call at J. Alexander's office, northeast corner of Green and Campbell streets.

A Perfumed Breath.—What lady or gentleman breathes when using the "Balm of a Thousand Flowers" as a deodorant would not only render sweet but pleasant to those around her? The subject is so delicate their friends will never mention it. Pour a single drop on the hand and rub the hand well until the breath is sweet and morning. A fitting first bottle will last a year.

A Beautiful COMPLAINT may easily be avoided by using the "Balm of a Thousand Flowers."

It will remove tan, pimples, and freckles from the skin, leaving it of a soft and delicate texture. It is a safe, non-oily, non-drying wash and face soap.

SHAVING MADE EASY.—With your shaving brush in either water or oil, pour two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, much facilitating the operation.

INTERESTING TO FARMERS.—The Commercial Review has published some remarkably forcible articles in reference to the necessity for establishing a Farmers' Exchange. The articles have attracted the attention of many gentlemen, and the superintendents of the Merchants' Exchange have determined to afford the facilities for its organization.

The meeting is to be held on Saturday, April 1, at 10 A.M.

AMERICAN OF LOUISVILLE.—Be on your guard!—At a late hour last night we were assured that the Night Watchers and wire-pullers had secretly matured their plans to day to defeat the American candidates to day. Their arrangements are perfectly understood by their minions throughout the city. They intend to make a bold and desperate effort at the polls to day. Shall they succeed? Shall the American can candidates be defeated by the secret machinations of a miser his Sag-Nicht clique? Again we are to be on our guard! Let no frauds be practiced. Be vigilant, be active, in spite of all secret Sag-Nicht maneuvers the victory will be ours.
